Why Do You Need Legal & Identity Theft Protection?

Legal insurance and identity theft protection are integral pieces to the benefits puzzle. Regardless of the industry, all employees experience milestones where legal and financial guidance would be a huge relief, in good times and bad.

Legal insurance makes accessing attorneys easy and affordable, so when you are ready to add a child to your will, or lease your first apartment, purchase a new home or when life’s unexpected events occur, like when you get a speeding ticket or struggle with a failed marriage. Identity theft protection works to proactively prevent thefts for your family while also doing the heavy-lifting if a breach does occur.

These two plans work hand in hand to provide security to you and your family at all life stages.
